

AMNESTY INTERNATIONAL AUSTRALIA CASE STUDY

How Amnesty International Australia used Aerofiler to go from hard copy filing and spreadsheets to automated contract management

**AMNESTY
INTERNATIONAL**

OVERVIEW

Amnesty International is an NGO with a mission to ensure that the human rights of every person in the world are protected and promoted.

Katie Wood is Amnesty International Australia's Legal Counsel and Company Secretary. She advises Amnesty on legal matters ranging from contracts, to IP, to corporate law.

Before Aerofiler, Amnesty was using Excel spreadsheets and hard copy filing to manage contracts.

This caused challenges diarising key dates, leaving Amnesty with poor visibility over the timing of contractual terminations and renewals.

“I'm loving it. I'm about to get a colleague to put in all of our current contracts, which is fantastic and saving everyone time and money on tracking our contract obligations.”

**Katie Wood, Legal Counsel and
Company Secretary**

THE SOLUTION

- **Rapid Onboarding:** With a resource-constrained legal team, Amnesty needed a solution that would allow them to get up and running immediately without a complicated setup.
- **Keyword Searching:** Instead of having to open up and read PDF files one by one, Amnesty can now perform keyword searches and have all results displayed on a single screen.
- **Termination and Renewal Tracking:** Rather than manually tracking dates through Outlook, Amnesty can now generate dynamic reports and receive automatic alerts about upcoming terminations and renewals

RESULTS

90%

Reduction in time searching for contracts

100%

Visibility into contractual obligations

CONCLUSION

Aerofiler has delivered value to Amnesty for "everything related to proper management of contracts".

Katie highly recommends Aerofiler for legal professionals who want to replace spreadsheets and hard copy filing with an automated system that will allow them to easily search key terms and track key dates.

Contact us today at info@aerofiler.com to discuss how we can help your team automate contract management.
